What is Digital Signage?

If you are looking for a different, low cost way to inform your customers and get your brand and messages out there, let GBS DIGITAL SIGNAGE help you.

Enjoy having managed content, created to tell your story and stored digitally on the "cloud", in a custom designed, branded interface set up and maintained by GBS.

Layouts incorporating video, images, audio, documents, YouTube feeds, websites, live streams, RSS tickers, widgets and more give your customers an entertaining and informative new way to experience your brand.

Wifi or ethernet connection required.

191 Howard St.
Franklin, PA 16323
